#### Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

## User Stories

Use the below template to list all the user stories for the product.

| User Type                | Functional Requirement (Epic) | User Story Number | User Story / Task   | Acceptance criteria   | Priority | Release  |
|--------------------------|-------------------------------|-------------------|---|---|----------|----------|
| Customer (Client User)   | Registration                  | USN-1             | As a User, I will register for the application by entering my email, password, and confirming my password.            | I will be redirected to Email Verification                      | High     | Sprint-1 |
| Customer(Automated User) | Registration                  | USN-2             | As a User, I will Validate the Customer Credentials once after the Email Verification.                                | I will receive confirmation Message from Administrator          | High     | Sprint-2 |
| Customer(Client User)    | Login                         | USN-3             | As a User, I will Login into the Portal using Login Credentials Provided.   | I will be Redirected to the Portal Dashboard Page               | Medium   | Sprint-2 |
| Customer (Client User)   | Dashboard                     | USN-4             | As a User, I will book for a ticket from available sections along the Application and Submit the Ticket to the Portal | I will be Issued with a Ticket Applied Message from the Portal. | High     | Sprint-3 |
| Customer (Admin User)    | Validation                    | USN-5             | As a User, I will issue with a Suitable Agent to the Customer.  | I will send a mail about the agent issued to the website.       | High     | Sprint-2 |
| Customer(Agent User)     | Agent                         | USN-6             | As a User, I will satisfy all the queries to the Customer for all the repetitive responses from the Customers.        | I will communicate with a Query.                                | Medium   | Sprint-3 |
| Customer(Server User)    | Feedback                      | USN-7             | As a User, I will fill up the Feedback form provided to improve or service provided from the website.                 | I will accept the Feedback and issue with a message for queries | High     | Sprint-4 |
| Customer(Website User)   | Log out                       | USN-8             | As a User, I will Log out of the website when my Queries are over or else will begin again from the Beginning.        | I will Estimate the User Response and React to end the Process. | Low      | Sprint-1 |
